EDUCATION

Thapar Institute of Engineering and Technology
Bachelor of Engineering in Computer Sciences (CGPA: 8.25)

Patiala, Punjab
Apr 2022 – Apr 2026

BCM Arya International
12th Grade - A levels (CGPA: 9.5)

Ludhiana, Punjab
Mar 2020 – Mar 2022

EXPERIENCE

Data Science Intern

Jun 2025 – Jul 2025

Slashcode Softwares Pvt. Ltd.

Ludhiana, Punjab

- Leveraged **LSTM** networks to engineer a demand forecasting system, leading to a **10% reduction** in stockouts and **5% decrease** in excess inventory, directly streamlining supply chain operations across the region.
- Extracted sentiment from user reviews using **NLP**, resulting in a **15% increase** in product recommendation accuracy.
- Visualized complex datasets using **Matplotlib** and **Seaborn** aiding strategic decision capabilities across teams.

Full Stack Campus Intern

Apr 2024 – Feb 2025

ACT Center, Thapar School of Liberal Art and Sciences

Patiala, Punjab

- Developed a **NextJS** application to automate **BibTeX** parsing and display of publications on TIET's official site.
- Implemented a **RESTful API** using **NodeJS** to enable efficient data retrieval for a Learning Management System.
- Built a **full-stack** web application using **React**, **NodeJS** and **PostgreSQL** to visualize GitHub commit activity, enabling real-time tracking of junior developers' contributions and improving team workflow efficiency by 30%.

Full Stack Intern

Jun 2024 – Jul 2024

PraxisForge Pvt. Ltd.

Remote | Delhi, India

- Authored 10,000+ lines of code to the company's repository, driving a 20% boost in system performance across domains.
- Pioneered an application to enable the review of news articles prior to publication decreasing false rate by **40%**.
- Integrated **MongoDB** with a Flutter based application, leveraging **Redis** for caching frequently accessed data.

Undergraduate Research Project

Jun 2023 – Jul 2023

Pollution Control Board (PPCB), Ministry of Environment

Patiala | Chandigarh, India

- Ideated and scoped an industry institute interface to connect ITIs with industry, strengthening state-wide collaboration.
- Managed daily logs and automated communications using existing systems to enhance operational efficiency by over 40%.
- Analyzed operational workflows between the Pollution Control Board and Thapar Institute, pinpointing bottlenecks in data sharing and reducing reporting lag time by **15 days**.

PROJECTS

BoxBox - Formula 1 Strategy Maker | Python, NumPy, Pandas, React

Feb 2025 – Mar 2025

- Conceived a tire degradation model using **regression** to predict tire usage across laps and different rubber materials.
- Optimized strategies using data modeling, and over **10,000 Monte Carlo** simulations aimed at race-time minimization.

EasyFind - Smart Lost & Found System | NodeJS, React, Appwrite, Python

Aug 2024 – Oct 2024

- Revamped Thapar University's lost-and-found system using **python-powered** AI image captioning for efficient tracking.
- Engineered pipelines using chains for embedding structured metadata, integrated with **Pinecone vector database** for real-time semantic search, increasing search efficiency to 90% and impacting over 2000 users.

Splitzee - Split Funds Easily | NodeJS, React, MongoDB

Jun 2024 – Jul 2024

- Developed core functionality and launched Splitzee for community, leading to 700 weekly users within the first month.
- Incorporated client-side caching, reducing traffic on backend services and boosting performance by **40%**.

ACHIEVEMENTS

- Spearheaded five tech initiatives as the Technical Director of **Google Developers Club**, including machine learning and web development projects, engaging **200+ students** across Thapar Institute of Engineering and Technology (TIET).
- Mentored 20+ Creative Computing Society (CCS) juniors, fueling over 10 competition victories across the campus.
- Represented Ludhiana at a district level, inter-school **badminton** championship in **Jan 2020**.

SKILLS

Languages: JavaScript, Python, C/C++, SQL, R, HTML, CSS

Frameworks: NextJS, ReactJS, NodeJS, ExpressJS, AngularJS, Django, Appwrite

Tools & Libraries: Docker, Kubernetes, Jenkins, Git, Postman, TensorFlow, Pandas, Numpy, OpenCV

Relevant Coursework: Data Structures(DSA), DBMS, CN, OOPS, OS, Data Science, Machine Learning
